

# Stockdale Chamber of Commerce Teacher Minigrant Program

The intent of the minigrant program is to provide Stockdale ISD teachers with opportunities to develop innovative teaching ideas for their classrooms. All proposals must be tied to implementation of the TEKS, and student achievement. Teachers may work individually or in groups to submit proposals. Grant funds ARE NOT to be used to supplant those which should be provided by Stockdale ISD. The number of projects and the amounts funded will depend upon the amount budgeted each year by the Chamber.
